JSM-Center
Do a lot with a little
Dear friends,

With a rapidly changing global economic climate, capital-intensive manufacturers face an immediate challenge that is compounded by increasing competition. These manufacturers are pushed to provide more capabilities at the same time they are being asked to reduce their costs. In addition, there is a global drive to facilitate a more sustainable society by reducing pollutant emissions and providing long-term energy efficiencies.

Moreover, it is necessary to consider today’s realm of equipment procurement, whereby companies rely on partnerships they can trust. These trends have put an enormous challenge before us: How can we face the increasing number of new requirements, which our customers need to meet and that may need to be integrated into their current equipment and machineries?

In the light of the foregoing, we have set a goal to provide a level of commitment to our customers beyond that found anywhere in our field of business. Our level of commitment is demonstrated daily in our efforts to provide high-quality equipment and services, tailored to the customers’ wants, designed to meet their needs, produced in any quantity, and delivered to meet their schedule.

At JSM-CSER, we look forward to the opportunity to earn your trust. Our long term vision and dedicated team have a successful track record in procurement and supply chain management, and we are excited to share our expertise with you.

Sourcing quality equipment overseas is crucial to staying competitive in today’s market place. From sourcing products - to on-site inspection - to managing logistics, JSM-CSER has the infrastructure in place to help you every step of the way.

We are passionate about helping our customers navigate the challenges of sourcing products overseas. The global market place ensures an increased demand for viable supply chain channels that pay close attention to detail, offer flexibility, reduce risk and improve cost. In view of our history of success in delivering marked cost improvement to our customers and our uncompromising dedication to customer satisfaction, JSM-CSER anticipates consistent growth in demand for our value-added services.

Consider JSM-CSER as a partner to help build your customer base and compliment your supply chain strategy. We promise to delight you not only with delivering quality equipment and services but also with cost cutting results - every time.

Warm regards,
